

KEY to Chronic Medicine Management Reimbursement Criteria:
Quantity/dosage and duration of authorisation may vary - depending on the requested drug.
Accepted Treatment - will be authorised without requesting additional clinical information (unless specific concerns e.g. unusual dose requests).
Clinical Review - will be authorised if the drug history or co-morbidity clearly indicates that use of the drug is indicated in the specific patient.
Clinical Motivation - specific clinical information required before reimbursement is considered.
Specialist Script - will require a relevant specialist's prescription before reimbursement is considered.
Specialist Motivation - will require a relevant specialist motivation before reimbursement is considered.
Special Investigations (SI) - results of recent relevant tests required before reimbursement is considered.
