

Informed Consent - Terms and Conditions

Your medical scheme wants to empower all of its members to make the best possible healthcare decisions and optimise their medical scheme benefits, to ensure that each beneficiary has a rounded healthcare solution.

In order to ensure we provide all of our beneficiaries with a rounded healthcare solution, we have developed managed healthcare programmes and healthcare initiatives that will facilitate the enhanced management of each beneficiaries' healthcare needs, with us, healthcare providers, healthcare facilities and all third parties involved on the management of a member's healthcare solution.

All members who want to participate in the enhanced value add benefits are required to provide us with informed consent to be enrolled on the programmes and participate in the initiatives such as the Electronic Health Record ("EHR").

The EHR is a digital platform that contains the personal and health information of each beneficiary and once the beneficiary has consented to participate in the platform, the beneficiary electronic health record will be activated. This means the beneficiary's selected healthcare providers, the medical scheme and the beneficiary will have access to their personal and health information at their finger-tips. The member is, at all times, in control of the administration of his/ her EHR meaning the member controls who he/she wants to share his/her information with, who can access, view or collect his or her personal and health information.
